Pastor TD Jakes- The Power Bottom

You got lawyers?

You got alibis?

You got documentation?

Do you think you have anything that will refute the information that is coming out about what goes on behind closed doors at "The Potters House?"

P. Diddy can not help you. ❌

Tyler Perry can not help you. ❌

Oprah can not help you. ❌

Your ministry or congregation can not help you.

Do you know the current whereabouts of former Bishop Eddie Long?

Guess what?

We don't either. Why? Because what came out about his sexual escapades with minors is the reason he no longer holds any high regard in society on in the black church. This will be your fate as well.

Your reign in the pulpit is just about over. You did good deeds with one hand and did the unthinkable with the other. Serving two masters never ends well with those who pretend to mean well. 2024 will not be nice to those who have been serving the hidden hand.

All Truth.

All Knowledge.

All Wisdom.

Belong to "The People". No more middlemen between Christ and those who seek true spiritually. Which has nothing to do with any man or woman professing to be the anointed arbitrator between God & Man.
